It is understood that D. G. Wettlin Orange, attorney for Fred Allen, is about to bring habeas corpus pro ceedings for the release of his client, who is confined in the county jail, where he was sentenced to serve six months by Justice William Howard of Fullerton on a charge of having

peaten up his wife.

Allen gave himself up after the alleged attack, and was brought before Judge Z. B. West on a charge of having, by the alleged attack on his wife, violated the terms of the probation given him after he had pleaded guilty to the theft of furniure from a rented house in Yorba Linda. Judge West, after hearing the case, renewed Allen's probation with the added condition that he see nothing of his wife. Allen was released, but was promptly re-arrested battery charge in connection with the same attack, which had taken place at Fullerton.

It is understood that Wettlin is to ask for the writ of habeas corpus on the ground that Allen was tried twice on the same charge, which is forbidden by law. Wettlin mainains that Allen was tried on the charge when he appeared before Judge West, and was found not guilty of it. Otherwise his probation would have been forfeited. He claims the Fullerton proceedings mounted to nothing but a retrial on the same charge.

The Press has no Lesitation in saying that the voters of the state have studied these twenty propositions more carefully and will register a more discriminating opinion on them than is givby the votes of members of legislature on the bills which they pass on during a

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises go to your druggist and get I ounce of Parmint (double strength), and add to it ½ pint of hot water and a little granulated sugar. Take I tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Cloged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.

Keep Fit For Success In Life

You can take your boy and out of him make anything you like if you can get him under good self-discipline. All roads are open to the man who is strong and fit. Uncle Sam took "our boys"—those slabsided, stooped, hollow-chested youths-and made of them vigorous, well-developed, well set-up and courageous men. Take the right way! Train yourself and your children to take proper exercise, drink plenty of water and keep the system clean. Your doctor will tell you that anything from a common cold or headache to the most serious illness may result form the control of t serious illness may result from the absorption of poisons in the

The first principle is to keep the system clean. Occasionally see that the boy or girl, as well as yourself, has an internal bath. It may be with castor oil or a tiny pill of May-apple, aloin and jalap, which is sold by druggists as Dr. Pierce's Pleasant Pellets.

If a cold starts with a cough and it persists, then some local treatment for this condition should be taken. A well-known altertreatment for this condition should be taken. A well-known siterative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs, without alcohol, and has a scothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.

Latest From Oil Fields of Orange County

Four oil companies whose properties join at a common point and corner all have rigs up and will drill at Huntington Beach. The four companies whose properties join are the Amalgamated, East Whittier, Standard and Texcal. The four rigs are so close together, it is said, that if one should blow or fall down it would take the other three with it.

The Standard Oil Co. is pushing ahead rapidly with the development work at Huntington Beach. Bolsa No. 1 has made a water shut off and is now drilling ahead. Huntington Beach 1 is a newly located well, as is also Huntington No. 5. Hunting-ton No. 3 is drilling. Huntington No. 4 just spudded in and shows 200 feet of hole. Surf No. 1 is drilling at close to 2000 feet.

A little race rivalry has developed at Huntington Beach between the crews of the Standard Oil Company and the crew of the Texcal Oil company whose wells are drilling with in thirty feet of each other. Both companies got an even start and to date have approximately the same mount of hole.

After making some 300 feet of hole and finding cable tools imprac-tical the Mid-Central Oil company is changing to the rotary. Rigging up for the new tools is now in prog-
